

At The River

When you first get to the river or stream:

What does the river/ stream look like? Is it fast or slow flowing?

Is the water clear or is it murky? Can you see the bottom? Are there any water weeds?

Is there any rubbish that shouldn't be in the river?
Tyres, shopping trolleys, plastic

Can you see any wildlife?

Minibeasts - dragonflies, mosquitoes, mayflies

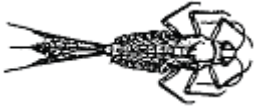

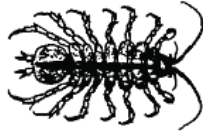

Birds - ducks, swans, heron

Fish - minnows in a shoal, trout

At The River

Look at the minibeasts you have found in the river. Try and identify them. Are any of them indicator minibeasts? Put a tick in the box if you think you have found them.

Indicator Minibeasts

 Mayfly Nymph		 Water Louse	
 Stonefly Nymph		 Blood Worm	
 Caddisfly Larva		 Sludge Worm	
 Freshwater Shrimp		 Rat-tailed Maggot	

Write here what else you have found including other minibeasts and fish:
